

KAUMALAPAU HARBOR

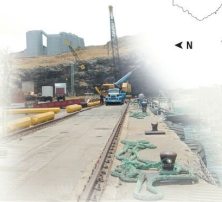

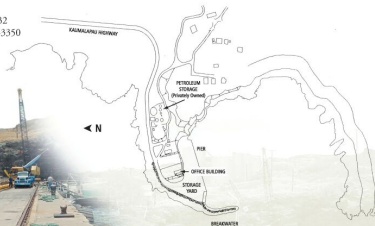

Kaumalapau Harbor is the newest member to PORT HAWAII. A 250-foot breakwater protects the barge wharf located on the north side of the harbor. A lighted buoy off the southern tip of the breakwater marks the 600-foot wide harbor entrance. A turning basin within the harbor measures 800 feet by 500 feet with 30 to 50 feet water depths.

For more information on Kaumalapau Harbor, please contact the Maui District Manager's Office at:

Department of Transportation
